Neutral Milk Hotel - In The Aeroplane Over The Sea

[Intro]: G Em C D

```
G                 Em                      C               D
What a beautiful face I have found in this place, that is circling all 'round the sun
G                 Em                      C               D
What a beautiful dream that could flash on the screen, in a blink of an eye and be gone
        G     Em          C          D        G    Em C D
From me, soft and sweet, let me hold it close and keep it here with me
```

```
G                 Em                      C               D
And one day we will die, and our ashes will fly from the aeroplane over the sea
G                 Em                      C               D
But for now we are young, let us lay in the sun, and count every beautiful thing
        G     Em       C          D        G    Em C D
We can see, love to be, in the arms of all I'm keeping here with me
```

[Interlude]: Em C G D Em C G D^4

```
G                 Em                      C                    D
What a curious life we have found here tonight, there is music that sounds from the street
G                   Em                   C                    D
There are lights in the clouds, Anna's ghost all around, hear her voice as it's rolling and ringing
          G    Em            C          D          G    Em C D
Through me, soft and sweet, how the notes all bend and reach above the trees
```

```
Em⁴                     C⁴                             G⁴
Oh how I remember you, how I would push my fingers through your mouth
                     D⁴                                      Em⁴
To make those muscles move, that made your voice so smooth and sweet
                                 C⁴                       G⁴
But now we keep where we don't know, all secrets sleep in winter clothes
                     D⁴                         Em⁴     C⁴ G⁴ D⁴
With one you loved so long ago, now he don't even know his name
```

```
G                 Em                    C               D
What a beautiful face I have found in this place, that is circling all 'round the sun
G                   Em                   C                    D
And when we meet on a cloud, I'll be laughing out loud, I'll be laughing with everyone
   G     Em        C          D        G  Em C D G
I see, can't believe how strange it is to be anything at all
```
